

## HENRY GEORGE INSTITUTE

This year's HGI election by members to be held in May will elect four members of the rotating Board of Directors, and the 1990 Nominations Committee. The 1989 Nominations Committee includes: Board members, Robert Clancy and Sydney A. Mayers; non-Board, Richard Blansky, John Burger and Gilbert Herman. Nominations may be made by any member; on request, a list of current members will be sent.

A new literature list will be sent shortly to readers of the Georgist Journal in North America. The list will be sent on request to persons in other countries. Several new offerings are on the list, including Land in History by Benjamin Smith, Free America by Bolton Hall, and the papers of Harry Gunnison Brown.

The correspondence course continues, and several graduates of the first one, Fundamental Economics (Progress and Poverty) are pursuing their studies with the second one course, Applied Economics (Protection or Free Trade and Social Problems) and the third one, Economic Science (The Science of Political Economy). Richard Blansky, a graduate of all three courses, is now a correspondence teacher.

Inquiries and enrollments for the basic course continue to come in from far and wide. One enrollment is from C. A. Falconer, way up in the Northwest Territories of Canada, who writes: "Several years ago I came across the book Progress and Poverty in our local library. The book was rather old and I read it several times and was quite impressed with Henry George's theory. Unfortunately our library discarded the book and I have been unable to find a copy. I am looking forward to receiving my own copy and taking the course."

So even in Yellowknife (capital of the Territories) P&P found its way. But once is not enough - the effort has to be kept up.
