Our Purpose

REPRESENTATIVES from almost every country in the world will visit beautiful Copenhagen next July to attend the Single Tax Conference called by The Henry George Association of Denmark.

It is appropriate that a large delegation should attend from America, the birthplace of the great teacher. It is also important that American Singletaxers be represented in the permanent world-wide organization of Commonwealthers which is now in the making.

Singletaxers may thus combine a real vacation with a chance to present our cause to the nations of Europe. The activities of a large Conference will not fail to be broadcasted over the Continent, and thus brought to the attention of all governments.

We have organized this tour so that it will be possible for everyone to go at a minimum expense without sacrifice of time or comfort. Every step has been carefully planned to this end.

We have selected the United States lines because of the excellency of its cuisine, service and accommodations and the American Express Company for its well known, world-wide efficiency in organizing tours.

The Esperanto Congress at Edinburgh follows immediately after the Conference. See itinerary for special extension tour.

Ni kore invitas vin iri kun ni.

The Committee will be glad to consider others who may wish to go with us. Early applications will receive first consideration as the party is necessarily limited in number and, since it is expected that all available accommodations will be taken up by an early date.
