Messages to the Conference

"I cannot commit myself in advance to cross the Atlantic for the purpose but neither will I refuse, for who knows? Thank you for enrolling me . . . the United Kingdom may be behind the times, as our American friends delight in asserting, but in activity for the cause of Land Value Taxation you certainly take the lead. I have very vivid recollections of the Edinburgh Conference in 1929 and I hope the present one will equal it in outstanding success."—*Senator Arthur W. Roebuck, Toronto.*

"I am striving to come if the matter of visas and the procuring of finance can be managed. Our work here in Berlin is for the time being suspended. But I am able to do something as member now of the editorial staff of the *Tagesspiegel* (the Daily Mirror), the largest German daily paper. This I am sending you now every day in exchange for *Land & Liberty* and the *Manchester Guardian weekly*, which you kindly send to me."—*Rudolf Schmidt, Berlin.*

"Unfortunately there is no prospect of my being able to attend. As for a message, what I have specially in mind is a statement giving an outline of the work of the N.S.W. League in securing adoption of local taxation on land values in N.S.W. I want all the members of the Conference to get it. . . . Like you in England we have a tragedy of a Labour Party Government in Australia. They in Australia are rank frauds trading in the name of 'Labour.' It is a very good catch-cry; in practice they are Tories. Our trouble is the alternative which is also Conservatism, as with you. Probably our Labour Government will go out at the next election towards the end of the year. The only Premier in 50 years that I can look back to with pride and admiration was J. H. Carruthers, who passed our Local Government Act."—*A. G. Huie, Sydney.*

"Glad to be a member of the Union and of the Conference, As one enrolled, regretfully I cannot be present. I have made the principal reason of my existence the task of spreading the teachings of Henry George. I believe that this is the most noble activity to which any man could dedicate himself, because peace and harmony will not be possible without acceptance of the principles set forth by the Prophet of San Francisco in his immortal book, *Progress and Poverty*."—*E. Lemos Ortega, Sevilla, Spain.*

"Please send notices to the various Extension leaders of the Henry George School of Social Science. I am hoping it will be possible for me to attend. It would be a great opportunity to meet friends from all over the world. Conference papers on the past have been extremely interesting and valuable and I am sure that your coming Conference will be another landmark."—*Robert Clancy, New York.*

"I would like to get over to the Conference, but don't believe there is a chance of my doing so. The way I feel your country is going, I am afraid I would get into too many arguments, which would be bad for my blood pressure. This country is going the same way, though, and I suppose I'll be 'blowing up,' here, more and more all the time."—*H. F. Badgley, New Jersey.*

"I have received *LAND & LIBERTY* regularly. I read it with satisfaction. It is a great help. Please send it to four friends of mine (names and addresses given) and fellow-believers who

have sustained with me the ideas of Henry George in our State and in the whole country. I can inform you that all of them will accept the title of associates of the International Union and it is possible that one or more of them wish to participate in the Seventh International Conference of August 14-21. For myself, I consider it an honour to be included among the General Committee and Deputy Correspondents representing Brazil."—*Rubens do Amaral, Rio de Janeiro.*

"Much regret I cannot be present. I will ask you to give my best wishes to all at the Conference. Especially I ask that something be done to make other members interested in the question of 'The Youth and Georgeism.' The correspondence club I have started should be not only a correspondence between young friends, but the result should also be an international organisation of young Georgeists working systematically for the extension of our ideas. This, then, briefly, is my message to co-members—do something for spreading our ideas among the young people."—*Svend E. Hansen, Denmark.*

"I will watch the proceedings with deep interest and I trust that the Conference will be a great success. We know how the world is in such need of a realisation of the fundamental principles which are the objects of our organisation. We very much appreciate the work that the Union is doing. (Enclosed was a generous contribution on behalf of himself and members of his family, with Union membership subscriptions and Conference fees).—*S. W. Hart, Western Australia.*

"I may manage to come to the Conference, but it depends on many things. I had the honour of hearing Henry George speak in Birmingham, England, at a meeting to which I accompanied my father and elder brother. Must have been in my teens, but I remember how the audience responded to the speech. At question time one man shouted, 'We want leaders,' to which George replied, 'When the army is ready there will be no lack of leaders.' I have ever been grateful that my father took me along."—*H. H. Hollins, British Columbia.*

"I regret very much that I will not be able to attend the Conference but I will be with you in spirit. There probably never was a time when there was greater need than now for the philosophy of Henry George. Perhaps after the present experience of Socialism in Great Britain, with its bureaucracy, regulations and restrictions, the people will turn to real freedom and personal liberty."—*H. Barber, Ottawa.*

"I don't know yet if I can get to England. . . . Our work is—teach. Against us are the military, the politicians, the landowners, the churches, etc., etc. On our side will be the citizens of the big cities near the sea—Cardiff, Hamburg, Amsterdam, Bilbao, Barcelona, etc. Our work is this—teach. Free trade is the door; the motto is OPEN DOOR POLICY."—*R. Casas Cadilla, Cuba.*

"My demob. should be over well before August 14 and I will make every attempt to attend the International Conference at Swanwick. I feel somehow that it is one of those things not to be missed and I look forward to it eagerly."—*Victor G. Saldji, Kenya.*
