

HE STAYS FIXED.

Like some tall cliff that rears its awful form,
Springs from the vale and midway leaves the storm.
Though clouds and darkness 'round its breast are spread
Eternal sunshine settles on its head.—Goldsmith.

book we are not criticising either the author or his performance. In genuineness, clearness, and force, Mr.

Franklin's work is in no danger from comparison with the best on any side of the subject he discusses.

The Public

is a weekly review which prints in concise and plain terms, with lucid explanations and without editorial bias, all the news of the world of historical value. It is also an editorial paper. Though it abstains from mingling editorial opinions with its news accounts, it has opinions of a pronounced character, based upon the principles of radical democracy, which, in the columns reserved for editorial comment, it expresses fully and freely, without favor or prejudice, without fear of consequences, and without hope of creditable reward. Yet it makes no pretensions to infallibility, either in opinions or in statements of fact; it simply aspires to a deserved reputation for intelligence and honesty in both. Besides its editorial and news features, the paper contains a department of original and selected miscellany, in which appear articles and extracts upon various subjects, verse as well as prose, chosen alike for their literary merit and their wholesome human interest. Familiarity with THE PUBLIC will commend it as a paper that is not only worth reading, but also worth filing.
